

HR Representative / Hiring Manager via MEMSnet.org:

Hello there! Your posting on the www.MEMnet.org WEB site for this Career opportunity has caught my attention. I know based on my Education, Experience, Skills, Background and Ability that I am the ideal candidate for this position – please refer to my resume for more details.

Allow me to give you a brief introduction on myself. I am a multilingual Mechanical Engineer with domestic and international professional experience in Product Test, Systems Engineering, Reliability/Quality, New Product Development, Product Design, Programming, R&D, MEMS/Nano, Mfg, Process Engineering, Market Analysis & Management. I am a hard-working tenacious individual who can identify innovative ways to troubleshoot quality, manufacturing and product reliability issues. I have an outstanding work ethic with an appreciation of teamwork and good sense of humor. In prior positions, have led efforts implementing cost-saving ideas & Product / Productivity / Test / Yield / Mfg. improvements.

Since it is difficult to list all of my relevant accomplishments in a Resume, we can set up some time to discuss my interests and qualifications for this position via a remote phone interview!

After reviewing my Resume, if interested I can then provide you with the “**Letters of Commendation**” and “**List of References**” and “**Performance Evaluations**” as mentioned. I will follow up with you by phone within the next week to discuss my application and Candidacy in greater detail. In the interim, please feel free to contact me at your leisure.

Thanks for your time and attention, I look forward to speaking with you soon with favorable interest and till then I remain . . .

Most Sincerely & Respectfully Yours,

Rubén Peña

Sr. Engineer / Manager
